

# JANTA VEDIC COLLEGE

BARAUT-250 611, BAGHPAT (U.P.)

NAAC Accredited "A" Grade College with "3.39/4.00 C.G.P.A."

Ref. No. \_\_\_\_\_

Dated 28.03.2022

## Best practices 2020-21

### Title of the Practice1:

Switching to online mode of teaching during covid-19 Pandemic.

### Objectives:

To adapt to a new effective way of teaching-learning during covid-19 Pandemic.

### The Context:

In the wake of the Pandemic that hit the education badly, the institution and faculty have to devise some measures to keep the teaching-learning process alive with minimal available resources.

### The Practice:

The college strengthened the internet infrastructure and ensured the online availability of some of the college library resources. It encouraged its faculty members to take on short-term courses and FDPs to learn the skill of online teaching and handling online tools that enabled them to teach online effectively.

### Evidence of Success:

Our faculty members have contributed 144 e-contents to the UP higher education Digital Library. Almost all the faculty members now take classes using tools such as Google Classroom, Google meets, Zoom, Webex, etc. Three months short-term course on Computational Chemistry was conducted online by the chemistry department with international collaboration.

### Problems Encountered and Resources Required:

Teachers are using free platforms and software which have limitations on use and functionality. There is a need for a strong LMS system. On the student end, many of the students can't afford smartphones, a bare necessity for taking lessons online.

Best practices 2020-21

## Title of the Practice 2:

Using social media to highlight college activities and attain large public feedback.

## Objectives:

To enhance public participation through social media for a better educational atmosphere in the college.

## The Context:

A positive image of the institution establishes faith among parents and students. Though the college has a website, visited for viewing important notices. The college activities can be highlighted through social media.

## The Practice:

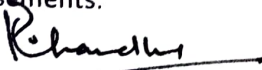

The college has started its Facebook page. The photos and videos of almost all the student-oriented activities are being uploaded on the site. As the Facebook page is easily accessible, the college is getting feedback from society and using it for improving the performance of the institution and winning social trust.

## Evidence of Success:

The events uploaded on Facebook page are: Rover ranger camp, felicitation of teachers by various organizations, hosting an international workshop and one-day seminar, inter-college kabaddi-championship, covid vaccination camp, voter awareness program, mission shakti, student visit to sugar mill, Plantation drive in campus, mental health awareness program and yoga camp, cyber security day and individual student achievements: qualified CSIR-UGC NET, winning VC Gold medal, boxing gold medal

## Problems Encountered and Resources Required:

The problem with using Facebook is that the information uploaded does not get proper undivided attention, the viewer takes them randomly and with distracting advertisements.
